

HITLASERS.COM

THE HOTTEST HITTING AID ON THE PLANET!

- Strengthen precise power swing muscles.
- Instantly increases bat speed.
- Coaches flawless power hitting mechanics.
- Nurturing, "power swing muscle memory;" critical for game day success.
- Wear it, and hit as usual during batting practice.

OVERVIEW

- Seamlessly integrate with your batting practice, working with all drills, swings, and methods. Need hitting guidance? Try our free access hitting program, with reliable tips for beginners, and advanced players.
- Isolate and improve power hitting mechanics by removing either arm or increasing the resistance, fixing a long swing.
- Customers include MLB® players and NCAA® teams, selling to over 25 countries.
- Adjustable to fit youth, and pros; suitable for ages 8 years, and above.

POWERED BY EXOPRECISE TECHNOLOGY

Globally Patented Exoprecise Resistance Technology

First Of A Kind Sport Precise Methodology

The simple exercise of raising your elbows to the side demonstrates the basics principles of Exoprecise resistance; building strength in your shoulders, laterals, and obliques. Releasing from resistance accelerates your elbows, quickly returning to your center of gravity, developing fast-twitch/muscle memory.

"Mashing! Barreling everything, with backspin pullside; not getting his usual hookspin...gave that look of, oh I felt that...it was impressive, our head coach kept looking at me and, raising his eyebrows. The product is sweet, every guy on the team is ramming the ball."

Rusty McNamara, Hitting Coach; University of Hawaii.

LASER BLAST

WHAT IS LASER BLAST?

Laser Blast, is the name for any hitting drill with both arms inside our swing trainer.

Set-up: Both arms inside.

Purpose: Improve bat speed, exit velocity, mechanics, build strength in power hitting muscles.

Drills: Works with all hitting drills.

Swing Types: Works with all swing types, and hitting methods.

LASER WHIP

WHAT IS LASER WHIP?

Laser Whip, is the name for any drill with your back arm inside our swing trainer.

Set-up: Back arm inside.

Purpose: Improve bat speed, and power for contact further away from your body; AKA powerful extension.

Drills: Works with all hitting drills.

Swing Types: Works with all swing types, and hitting methods.

LASER BEAM, AND LASER LINEA

LASER BEAM, AND LINEA

TOP, AND BOTTOM HAND DRILLS

Set-up: Both, or back arm inside our baseball hitting tool
Purpose: One hand isolation to increase bat speed, and power.

Drills: Works with all top, and bottom hand drills.

Swing Types: Works with all swing types, and hitting methods.

"Dude...you are spot on. I'm not satisfied with 60%, I'm ready to strap this thing on and get to work."

Eric Thames, MLB player; Milwaukee Brewers.

EXOPOWER

THE SCIENCE OF POWER SWING TRAINING

- Launch Pad
- Resisted Load
- Accelerated Launch
- Powerconnect
- Accelerated Relaunch
- Resisted Momentum
- Accelerated Return

LAUNCH PAD

POWER BATTING STANCE TRAINER

Setting up in your batting stance, Exoprecise resistance keeps your arms at the optimal distance from your body; improving bat speed, mechanics, and strength in power batting muscles.

RESISTED LOAD

POWER LOAD TRAINER

During your swing load, and separation your back elbow moves away from your body; pushing against our power swing batting trainer. Patented Exoprecise resistance, strengthens your power hitting muscles, improves mechanics; releasing triggers a boost in bat speed to start your swing.

"I have identified your swing trainer as the best product to get players using proper mechanics...creating a swing in the correct sequence...making it convenient to practice mechanically sound swings...encouraging players to take more correct practice swings."

Howard Nakagama, Chicago White Sox Scout; Professional Hitting Coach.

HITLASERS.COM

ACCELERATED LAUNCH

BAT SPEED TRAINER

Starting your swing path to the ball, our power swing trainer uses energy from Exoprecise resistance, to trigger acceleration; improving bat speed, contact accuracy, fix a casting swing, and build fast twitch muscle fibers for game day

POWERCONNECT

POWER SWING TRAINER

Exoprecise resistance re-connects your weaker arms to your strong core, improving batting accuracy, power, as you "stay connected" to your swing, AKA; "hands inside the ball."

ACCELERATED RELAUNCH

POWER SWING FORCE

During Laser Blast drills our baseball swing trainer provides a simultaneous push, and pull force; triggering a relaunch of acceleration for power hitting, speed transforms to momentum for extended contact areas. Strengthening power hitting muscles, improving bat speed, hitting mechanics, and nurtures fast twitch muscle fibers.

I have been following the development of your baseball swing trainer, as I personally feel it is one of the best products I have seen."

HITLASERS.COM

RESISTED MOMENTUM

POWER-V SWING TRAINER

Staying through the ball, bat speed changes to momentum; critical for power, and extension. Our baseball power swing trainer gives Exoprecise resistance, improving strength in hitting muscles; triggering another boost of bat speed to finish your swing.

ACCELERATED RETURN

POWER FOLLOW THROUGH TRAINER

Finishing your swing, our batting trainer gives a final boost of bat speed, improving follow through mechanics, building fast twitch muscle fibers; critical for, "power hitting muscle memory."
